

*Jeremiah has been doing their best to support moms and our children. There are two staff members on campus each day during the week, and [JP created] an emergency fund to provide essential items families needed after the pandemic hit, including diapers, formula, food or anything else that was a necessity—because they've lost their job or were inside with children. – Isabella, JP MSP Mom*

# JEREMIAH MINNEAPOLIS - ST. PAUL 2020 IMPACT

*JP MSP families, staff, and community came together in a challenging year.*

In 2020, we had to pivot, and we did. Thanks to the support of our community and the hard work of our staff and moms, we expanded our services and provided new opportunities. Eight of our alumnae moms joined the first class of JP Fellows, and 20 MSP children attended new, high-quality summer camps. No staff member lost their job, all team members provided virtual programming, and no family lost their housing.
