

2025 SUMMIT IMPACT REPORT

“This was an unforgettable weekend! I am so grateful and proud to be a mom of the Jeremiah Program. The village, the sisterhood, the opportunities they have given to me and my children I could never repay.”

—DAISY STANLEY, JP BOSTON MOM

In March 2025, nearly 1,000 moms, alumni, and partners gathered for the fifth annual JP Summit Weekend. We all came together for an unforgettable weekend of empowerment, growth, and sisterhood.

Moms attended workshops on topics such as entrepreneurship, parenting, advocacy, and building wealth. They left equipped with the tools to launch businesses, advocate for change, and build stronger futures.

In spaces filled with joy and learning, rooted in the theme “The Power of Collective Dreaming,” this year’s Summit Weekend revealed a deeper truth: When single mothers come together, they do more than transform their own lives — they set entire communities in motion. They ignite a movement.
