

2025 ALUMNI CENSUS REPORT

“I definitely know that I am not alone in it. I feel like it’s a group effort, here in Jeremiah. As they say, a village raises a child.”

—KYLIE SCHULTZ, JP ALUM

In March 2025, during Summit Weekend, JP launched our first-ever alumni census — a historic milestone more than 27 years in the making. For the first time, alumni across generations came together to share their journeys and voices since completing the program. Through this collective effort, we gained a deeper understanding of how JP moms have shaped their families, communities, and the broader movement for economic and social justice. The alumni census was rooted in connection and empowerment — a reflection of our shared belief that every alum’s experience and insight help us understand and measure the lasting impact of JP’s partnership with families across generations.

80%
OF JP ALUMNI
HAVE FULL-TIME
EMPLOYMENT

\$55,000
IS THE MEDIAN INCOME
OF JP ALUMNI, which is 71%
above the federal poverty level
for a family of 4

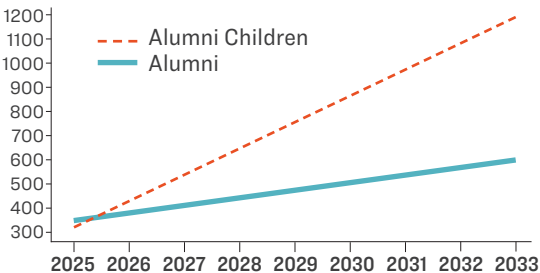

55%
OF ACTIVE ALUMNI*
COMPLETED THE SURVEY
