

2025 IMPACT REPORT

“When the systems felt impossible to navigate, JP helped me keep moving forward.”

—JP BOSTON MOM

In 2025 at JP, we sharpened our focus on improving college success for single mothers as rising costs and changes in public assistance intensified pressures on student-parents, particularly women of color. Despite these challenges, our two-generation (2Gen) approach delivered strong, measurable results. We celebrated 10 years of JP Boston and thank supporters whose commitments to the “Power of Ten” campaign honor our first decade of impact and fuel the work ahead. Your partnership made this progress possible — helping JP meet this moment and advance economic mobility for single-mom families in our community.
