

2025 IMPACT REPORT

“Some of the best strategies, insights, and strengths come from mothers who are navigating complex systems while raising children and pursuing their dreams.”

—JP MINNEAPOLIS-ST. PAUL ALUMNI FELLOW

In 2025 at Jeremiah Program, we sharpened our focus on strengthening outcomes for single mothers who are student-parents as rising costs and changes in public assistance intensified pressures on them, particularly women of color. Despite these challenges, our two-generation (2Gen) approach delivered strong, measurable results. Eighteen mothers completed their JP journeys last year, earning college degrees in fields ranging from social services to computer science. Your partnership made this progress possible — helping JP meet this moment and advance economic mobility for single moms in our community.
